SPECIFICATIONS

Appearance: Triple layer lip mask—red balm layer, transparent gelled oil layer with silver shimmering particles and opaque gelled oil layer with radiant red reflections.

ADVANTAGES

BENTONE® ULTIMATE CCC forms a strong structuring network that stabilizes the solid emulsion stick, keeping pigments uniformly dispersed throughout the formula to ensure consistent delivery with every application.

THIXCIN® R PC builds structure, body, and a luxurious texture within the stick, ensuring stability while still allowing for effortless glide. Thanks to its shear-thinning behaviour, the formula becomes silky upon application, delivering a smooth and comfortable feel on the lips without compromising the stick's integrity.

MEADOWESTOLIDE® is a natural derivative of *Limnanthes Alba* (Meadowfoam) Seed Oil and has been shown to improve the skin hydration.

FANCOL® POLYISO® 300-CG enhances shine and provides lubricity.

SUCRAGEL® XL is a natural oil thickening ingredient, ideal for reduced processing times and cold process formulations.
